Journal of Emerging Technologies in Web Intelligence

ISSN 1798-0461

Volume 2, Number 2, May 2010

Special Issue: Emerging Technologies in Internet Security and Networks

Guest Editors: Himanshu Aggarwal and Vishal Goyal

Contents

Guest Editorial 79
Himanshu Aggarwal and Vishal Goyal

SPECIAL ISSUE PAPERS

Performance of Dominating and Adaptive Partial Dominating Sets in AODV Routing Protocol for MANETs 80
A. Nagaraju, S. Ramachandram, and B. Eswar

Bee-Inspired Routing Protocols for Mobile Ad Hoc Network 86
Deepika Chaudhary

Distance and Frequency based Route Stability Estimation in Mobile Adhoc Networks 89
Ajay Koul, R. B. Patel, and V. K. Bhat

Investigation of Blackhole Attack on AODV in MANET 96
Anu Bala, Raj Kumari, and Jagpreet Singh

Copyright Protection of Gray Scale Images by Watermarking Technique using (N,N) Secret Sharing Scheme 101
Sushma Yalamanchili and M. Kameswara Rao

Broadband Integrated Services over Proposed Open CPE Architecture 106
Kushal Roy

Recovery Based Architecture to Protect Hids Log Files using Time Stamps 110
Surinder Singh Khurana, Divya Bansal , and Sanjeev Sofat

Software Radio 115
Varun Sharma and Yadvinder Singh Mann

SDR and Error Correction using Convolution Encoding with Viterbi Decoding 122
Shriram K. Vasudevan, Siva Janakiraman, and Subashri Vasudevan

Webinar – Education through Digital Collaboration 131
Anuradha Verma and Anoop Singh

Efficient Visual Cryptography 137
Supriya A. Kinger

Multistage Interconnection Networks: a Transition from Electronic to Optical 142
Rinkle Rani Aggarwal, Lakhwinder Kaur, and Himanshu Aggarwal

Web Based Hindi to Punjabi Machine Translation System 148
Vishal Goyal and Gurpreet Singh Lehal

Protecting Data from the Cyber Theft – a Virulent Disease 152
S. N. Panda and Vikram Mangla
